Advancing Nursing Education: Research, Quality and Innovation

Let us share and reflect key areas where standards of best practice for Research, Quality and Innovation can be developed in light of the Bologna Process

Call for abstracts

The European meeting of nurse educators in Lisbon will be a place of exchange and debate between professionals in nursing education concerning Advancing Nursing Education through the 2nd and 3rd cycles view by the perspective of Research, Quality and Innovation.

Parallel sessions:

Themes in Nursing Education

- 1) Research and new roles
- 2) Innovative strategies
- 3) Lifelong Learning

The main aim of this meeting is to bring educators from different countries to work together. The participants will share experiences concerning the development of nursing education; evaluate best practice in educational research and quality, and state of the art pedagogical innovation.

The parallel sessions organised during the 7th and 8th of October 2010 will allow the participants to contribute with their own presentations and experiences, so we invite all participants to submit an abstract in the frame of the three proposed themes selected for the conference until the 30th of April.
